## Exchange to Kyutech, See More and Learn More

張弘 -M10403206-

\*It's my pleasure to attend this NTUST-Kyutech short-term exchange program. This time is my first time to Kyushu institute of technology (kyutech). The kyutech's student is very friendly for us. And its unforgettable experience in this tour. The PBL is a great plan for us to know each other. In processing, we can express our thinking and discuss whether it is work or not. When we face the problem and solve it. By this project, I can realize that the students have the same goal to achieve together regardless of coming from. I'm so happy to cooperate with kyutech's student.

In this trip, we had a talk with international staff. We realize the kyutech's student the life style, hobbies and jobs. Realizing the English ability is a problem. Both of students are good at reading, listening and writing, but the speaking has to improve. Short-term exchange program is a good method for us to practice. By the way, the culture and environment is the most impressive. A lot of parts are worthy of learning. For example, the drivers are courtly, the street is clear... etc.

On Saturday, we had excursion around Kumamoto. It's really thanks kyutech's student to take us to Kumamoto Castle for sightseeing. Kumamoto Castle is a hilltop Japanese castle located in Kumamoto Prefecture. It's considered one of the three premier castles in Japan. Thirteen structures in the castle complex are designated important Cultural Property. This castle is really grand for me.

Finally, we had great experience for this trip. I am looking forward to kyutech's student coming Taiwan.
